

**REMARKS**

Applicants have amended the title of the invention and claim 14 to place this application into better form for issuance. This Amendment adds no new matter to the application.

Applicants request that the title of the invention be amended as noted to more accurately conform with the invention as described in the claims.

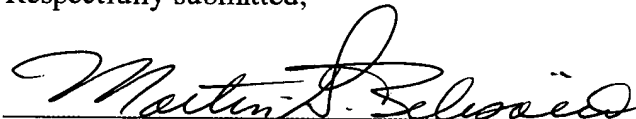

Applicants have noted that there is no antecedent basis for the term "said toner chamber" in claim 14, line 5. Accordingly, Applicants have amended claim 14 to provide said antecedent basis.

Because the application has been allowed and the issue fee is being paid concurrently herewith, this Amendment merely places the application into better form for issue. Accordingly, the Applicants respectfully request entry of the Amendment After Allowance under 37 C.F.R. § 1.312 and the issuance of a post-allowance communication reflecting such entry.

Respectfully submitted,
